

International Conference “Advances in Nonlinear Science” March 14–16, 2013

Organizing Committee: Ming Chen, Xinfu Chen, Marta Lewicka, Juan Manfredi, Dehua Wang

PLENARY SPEAKERS:

Emmanuele DiBenedetto

(Vanderbilt University)

Robert V. Kohn

(Courant Institute of Mathematical Sciences, New York University)

Lakshminarayanan Mahadevan

(Harvard University)

Gilbert Strang

(MIT)

INVITED SPEAKERS:

Luca Capogna

(University of Arkansas)

Fausto Ferrari

(University of Bologna)

David Hartenstine

(Western Washington University)

Adam Oberman

(Simon Frazier University)

Julio Rossi

(University of Alicante and University of Buenos Aires)

Matthew Rudd

(University of the South in Sewanee)

Eero Saksman

(University of Helsinki)

David Saunders

(University of Waterloo)

Charles Smart

(MIT)

Yifeng Yu

(University of California at Irvine)

Graduate students and postdoctoral fellows are encouraged to apply for financial support. For further information on the workshop and to contact the organizers, please refer to the workshop webpage, available from:
