

University of Pittsburgh
Department of Mathematics

Workshop on Nonlinear PDEs: Stability Analysis and Multiscale Applications

April 21- 23, 2023

Frick Fine Arts Building, Room 125 Auditorium

Speakers

Jose Carrillo (University of Oxford)
Gui-Qiang Chen (University of Oxford)
Alexander Cliffe (University of Oxford)
Constantine Dafermos (Brown University)
Mikhail Feldman (University of Wisconsin at Madison)
Feimin Huang (Chinese Academy of Sciences)
Pierre-Emmanuel Jabin (Pennsylvania State University)
Daniel Marroquin (Federal University of Rio de Janeiro)
Mikhail Perepelitsa (University of Houston)
Simon Schulz (University of Wisconsin at Madison)
Steve Shkoller (University of California at Davis)
Monica Torres (Purdue University)
Konstantina Trivisa (University of Maryland)
Alexis Vasseur (University of Texas at Austin)
Cheng Yu (University of Florida)

Sponsored by NSF and Mathematics Research Center of the
University of Pittsburgh

Organized by Ming Chen (mingchen@pitt.edu) and Dehua
Wang (dhwang@pitt.edu).

Visit <https://www.pitt.edu/~dhwang/pde2023.html> for
registration and more information. For administrative
questions, please contact Dylan Knapp-Scott,
