

October 2010

CURRICULUM VITAE

James H. Cassing University of Pittsburgh

PERSONAL INFORMATION

Born 1948; Married; one child; Citizenship USA

Office: James H. Cassing
Department of Economics
4908 W.W.Posvar Hall
University of Pittsburgh jccassing@pitt.edu
Pittsburgh, PA 15260
Phone: (412) 648-8746 FAX: (412) 648-1793
WebPage <http://www.pitt.edu/~jccassing/>

EDUCATION:

Ph.D. Economics	University of Iowa	1975
M.A. Economics	University of Iowa	1975
B.A. Economics	University of Kansas	1971

EXPERIENCE:

Current Position:

Professor of Economics, University of Pittsburgh,
Pittsburgh, PA, 1985 - Present.

Other Experience:

Various In-Country Research Projects and Policy
Advising, 1990 - 2010 (Attached on last pages).

Development Research Group, The World Bank Group,
May-December 2006.

July Visiting Research Scholar, International Monetary
Fund, Washington D.C., July 2002, March 2004, June-
2004, April-May 2005, April 2007.

Commerzbank Visiting Professor of Economics,
Department of Economics, Chemnitz Technical

University, Chemnitz, Germany, Sommersemester 1998;
2000; 2002; 2003; 2005.

Visiting Professor, Department of Economics,
Chemnitz Technical University, Chemnitz, Germany,
Summer 1998; June-July 2005.

Senior Trade Analysis Advisor, Ministry of Trade,
Government of Indonesia, Jakarta, Indonesia, January -
December 1990; July - August 1991; April - June 1992;
May - June 1994.

Associate Professor of Economics, University of
Pittsburgh, Pittsburgh, PA 1980-1985.

Senior Research Fellow, University Center for
International Studies, University of Pittsburgh,
January - May 1985.

Visiting Professor, School of Advanced
International Studies, The Johns Hopkins University,
Bologna, Italy, Spring 1984.

Visiting Professor, Department of Economics, Bar-
Ilan University, Israel, Fall 1984.

Research Fellow, Department of Economics,
Research School of Social Sciences, Institute of
Advanced Studies, Australian National University,
Canberra ACT, 1980-1982.

Assistant Professor of Economics, University of
Pittsburgh, Pittsburgh, PA September 1975-1980.
Appointed to Graduate Faculty, 1976.

Research/Teaching Assistant, The University of
Iowa, Iowa City, IA 1972-1974.

AREAS OF RESEARCH AND TEACHING INTEREST:

International Trade Theory and Policy

Microeconomics

International Finance and Development

Mathematical Economics

ACADEMIC HONORS AND AWARDS:

President, University Faculty Senate, University of Pittsburgh, 2001 - 2003.

Visiting Fellow, University of Warwick Global Economic Workshop, Summer 1998.

"Apple for the Teacher" Award for Good Teaching, University of Pittsburgh, September, 1984.

Scholarship of the International Cultural Institute, Internationales Kulturinstitut, Hungary, August, 1984.

Richard D. Irwin Doctoral Fellowship, The University of Iowa, 1974-1975.

NDEA IV Fellowship, The University of Iowa. 1971-1974.

Teaching Assistantships, The University of Iowa. 1972-1974

A. J. Boynton Scholarship Award (Economics), The University of Kansas. 1971

PROFESSIONAL MEMBERSHIPS:

Executive Board, Treasurer, *International Economics and Finance Society* (IEFS).

	American Economic Association	Atlantic Economic Society
	Royal Economic Society	Econometric Society
	Eastern Economic Association	Economic Society of Australia
	Omicron Delta Epsilon	Canadian Economic Association

SCHOLARLY RESEARCH AND ACTIVITIES

Research Completed

"International Trade in the Presence of Pure Monopoly in the Non-Traded Goods Sector," Economic Journal, September 1977, pp. 523-32.

"Backhaul Freight Rates and Non-Traded Goods in Bilateral Trade," Australian Economic Papers, June 1978, pp.167-71

"Transport Costs in International Trade Theory: A Comparison with the Analysis of Non-Traded Goods" Quarterly Journal of Economics, November 1978, pp. 535-50.

"International Trade, Factor Market Distortions, and the Optimal Dynamic Subsidy: Comment," (with Jack Ochs), American Economic Review, December 1978, pp. 950-55.

"Pure Traded Intermediate Products and Trade Pattern Predictions,"Atlantic Economic Journal, September 1979, p.78.

"Trade Pattern Predictions and Resource Allocation in a Model with Jointly Supplied International Transport Services," International Journal of Transport Economics, December 1979, pp. 293-317.

"Implications of the Auction Mechanism in Baseball's Free Agent Draft," (with R. Douglas), Southern Economic Journal, July 1980, pp.110-21.

"Shipping Innovation in the Pure Theory of International Trade," International Journal of Transport Economics, December 1980, pp. 301-25.

"Alternatives to Protectionism," in Western Economies in Transition: Structural Change and Adjustment Policies in Industrial Countries, (I. Leveson and J. Wheeler, eds.), Westview/CroomHelm, 1980, pp.391-424.

Reprinted in Anne O. Krueger (ed.) Portfolio: International Economics Perspective, Washington DC: USIA, 1981.

"Structural Consequences of Changing International Trade Patterns and Possible Alternative Policies: Comments," in Western Economies in Transition: Structural Change and Adjustment Policies in Industrial Countries, (I. Leveson and J. Wheeler, eds.) Westview/Croom Helm, 1980, pp. 388-90.

"On the Relationship between Commodity Price Changes and Factor Owners' Real Positions," Journal of Political Economy, June 1981, pp. 593-95.

"A Social Safety Net for the Impact of Technical Change," (with A. L. Hillman), Economic Record, September 1981, pp.232-37.

"A Note on Monopoly Pricing," (with W. Reiber and R. Romano), Atlantic Economic Journal, March 1982, pp. 89-90.

"State-Federal Resource Tax Rivalry: The Queensland Railway and the Federal Export Tax," (with A. L.Hillman), Economic Record, September 1982, pp. 235-41.

"A Note on Growth in the Presence of Tariffs," Journal of International Economics, February 1983, pp. 115-21.

"Transfers and Presumption with Many Commodities," Atlantic Economic Journal, July 1984, p.74.

"Protectionism and Non-Tariff Barriers," Commissioned paper for Anne Krueger (ed.), Portfolio International Economic Perspectives, August 1984, pp. 1-19.

"Modelling Commodities Markets for Practical Use: A Critical Assessment," commissioned paper for Design of an On-Line System for Assessing U.S. Strategic Vulnerability,

Vol. 2, Report to the MCDC, National Defense University,
U.S. Department of Defense, December 1984.

"The Distributional Impact of a Resource Boom," (with
P. G. Warr), Journal of International Economics, May 1985,
pp. 301-19.

"Political Influence Motives and the Choice Between
Tariffs and Quotas," (with A. L. Hillman) Journal of
International Economics, November 1985, pp. 279-90.

Reprinted in J. Bhagwati and P. Rosendorff (Eds.), Readings in the
Political Economy of Trade Policy, Cambridge, MA: MIT Press,
forthcoming.

"A Wicksellian Model of International Freights and
Prices," International Journal of Transport Economics,
February 1986, pp. 7-20.

"A Note on the Welfare Cost of a Tariff," Eastern
Economic Journal, April-June 1986, pp. 145-48.

"Shifting Comparative Advantage and Senescent Industry
Collapse," (with A. L. Hillman), American Economic Review,
June 1986, pp. 516-23.

OTHER PROFESSIONAL ACTIVITIES

Numerous invited seminar presentations at universities in North America, Europe, Asia, Africa, and Australia.

Various presentations at international organizations (IMF, World Bank, WTO, etc.), government departments and ministries, conferences, and colloquia worldwide.

Consulting experience related to international trade reform in Africa, Asia, and Latin America - Chief of Party or Team Leader on projects in Indonesia, Egypt, Jordan, Kenya, and Zimbabwe.

Member of "Related Faculty," Center for Latin American Studies, Asian Studies Program, West European Studies Program, University of Pittsburgh.

JAMES H. CASSING -- OTHER FUNDED RESEARCH, TECHNICAL REPORTS and CONSULTING ACTIVITIES SINCE 1990 (Note: Each project listed has one or more Technical/Research Reports associated with it, not listed but available through the project sponsor or at my website, <http://www.econ.pitt.edu/facpage.php?uid=14.>)

Jan. 1 - Dec. 31, 1990, Jakarta, Indonesia. Chief of Party, USAID/Government of Indonesia, Trade and Investment Project. This project entailed working with a number of personnel in the Ministry of Trade in order to create a capacity for trade policy analysis. Particular areas of focus ranged from industry studies (fertilizer, spices, transport equipment, etc.) to empirical analysis of the overall trade policy structure (tariff structure, quantitative restrictions, etc.) and some analysis of export markets.

July - August 1991, Jakarta, Indonesia. Economic policy analyst, USAID/GOI, Trade and Investment Project -- Analysis of Regulation and Deregulation in the Spice Industry. This project aimed to estimate the cost and benefits of deregulation in several important export industries including vanilla, cocoa, coffee, cassia vera, and nutmeg. There was also some empirical analysis of the consequences of deregulation for income distribution, especially with regard to small-holders.

April - June 1992, Jakarta, Indonesia. Economic policy analyst, USAID/GOI, Trade and Investment Project -- Analysis of Consequences of Deregulation in Certain Export Industries: Pepper and Coffee. Following recent deregulation, there arose considerable pressure to re-regulate several important export industries. This project aimed

to quantify the role of industry deregulation in industry performance.

May - June 1994, Jakarta, Indonesia. Economic policy analyst, USAID/GOI, Trade and Investment Project -- Analysis of the Prospects for the Downstream Wood Industry. The forest products sector is important in Indonesia. This project aimed to sort out the costs and consequences of various controls in the forest sector for downstream users such as sawn timber and furniture.

August - September 1995, Harare, Zimbabwe and Nairobi, Kenya. Chief of Party, USAID, Models for Capacity Building in Africa. This project entailed working with various organizations in Zimbabwe and Kenya to recount the successful capacity building project in Indonesia. The work included a number of meetings and lectures with governmental official and NGOs.

April - July 1996, Cairo, Egypt. Team Leader, USAID/Government of Egypt, Assessment of the Egyptian System of Standards and Quality Control as an Impediment to Trade. Although Egypt has dismantled a number of trade and investment barriers, the current system of mandatory standards now represents a significant non-tariff barrier. This project aimed to identify the choke points and to quantify the potential costs. Also, a detailed list of recommended reforms was prepared.

December 1996, Cairo, Egypt. Team Leader, USAID/GOE, Workshop on Standards and Quality Control in Egypt. This project consisted of a workshop and a series of meetings with government officials and businessmen aimed to begin implementing some recommended reforms of the Egyptian standards and quality control system.

August - September 1997, Cairo, Egypt. Trade Analysis Expert, USAID/GOE, Training Needs Assessment for the Ministry of Trade and Supply. The MOTS has recently assumed a role of leadership with respect to deregulation and reform of the Egyptian economy. The Ministry is also responsible for executing a number of duties mandated by membership in the WTO. This TNA was aimed at identifying opportunities for enhancing the abilities of MOTS personnel through various training programs inside and outside of Egypt.

April - July, 1998, Cairo, Egypt. Team Leader, USAID/GOE, Enhancing Egypt's Exports. This project brought together a team of eight

experts, including faculty at Cairo University, to assess domestic barriers to exports and recommend policy adjustments. The study included such things as measures of the negative effect on exports of tariff and non-tariff import barriers, measures of comparative advantage, prospects for enhanced exports from assorted policy reforms, and so on. The results and recommendations were presented at a number of government and business forums.

April - August, 1999, Cairo, Egypt. Team Leader, USAID/GOE, Egyptian Processed Foods and the Effects of an Egyptian - EU Euromed Agreement. This project developed a methodology and applied it in an attempt to quantify the effects of an impending free trade agreement with the EU for certain Egyptian products of particular concern. There was also an attempt to assess the potential ramifications of Egypt not entering into an agreement when other countries that have a similar export base - e.g., Tunisia - do so. The report was presented to the Minister of the MOTS, USAID, and others.

April - August, 2000, Cairo, Egypt. Trade Policy Analyst, USAID/GOE, The Economic Analysis of Tariff Reform in Egypt. This was a major research endeavor aimed to quantify the macro and micro economic consequences of embarking on a major tariff reform. The overall effort was broad with my particular efforts focusing on calculating ERPs, domestic supply response to reform, labor market ramifications, and some aspects of income distribution implications.

July 2001, Cairo, Egypt. Trade Policy Analyst, USAID/GOE, A Needs Assessment of Egyptian Customs. Egypt was in the process of reforming its customs to be compatible with the GATT mandated "customs valuation method." The project entailed an extensive evaluation of what needed to be done to comply, from legal changes to new computer hardware. I estimated the magnitude of the potential gains if the reforms were put into place. (See http://www.commercialdiplomacy.org/manuals/customs_needs_assessment1.htm)

April - May, 2002, Cairo, Egypt. Trade Specialist. This project begins a 5 year USAID project aimed at enhancing the policy analysis capabilities of the GOE. The initial project is a Training Needs Assessment for WTO compliance, trade remedies, automation, customs, and inter-ministerial coordination.

October, 2003, Indonesia. World Bank, Indonesian Decentralization Project. This project entailed a workshop aimed to formulate and

refine elements of a larger project concerning the Indonesian decentralization of budget and various local public goods delivery.

July - August, 2004, Gaborone, Botswana. Technical Barriers to Trade Specialist, USAID/SADC, Technical Assistance to the SADC Secretariat. This project aimed to assist the Member States of the Southern African Development Community (SADC) to manage and coordinate issues related to technical barriers to trade (TBT) within the context of the SADC regional market integration process, bilateral trade initiatives and the multilateral trading system. Specifically, this work built on earlier activities, which resulted in recommendations that SADC prepare a Draft TBT Annex to the Trade Protocol and conduct a series of product specific case studies on TBT measures throughout SADC. In particular, a report emerged based on field research in Botswana, Mozambique, South Africa, and Zambia. (See http://l.iacovone.googlepages.com/TSG_CaseStudies_SADC_TBTSPS_draft_Fi.pdf)

January - March, 2005, Gaborone, Botswana. Interim Director, Southern Africa Global Competitiveness Hub, USAID.

March, 2006, Amman, Jordan. Trade Consultant, USAID/AMIR Project. The Impact of the Jordan-United States Free Trade Agreement. After five years in force the Ministry of Industry and Trade (Jordan) requested an impact study which could assess the consequences of the JUSFTA at the industry level. The study reviewed data extensively and pursued a methodology aimed to isolate the effects of the JUSFTA from those of other on-going reforms. Estimates were provided of the export, import, investment, and employment consequences of the FTA.

May - December, 2006, January - February, 2007, Research Consultant, The World Bank, Agricultural Distortions Project. This is the first stage of a major Bank Research Division undertaking aimed to assess the extent, impact, and political economy underlying agricultural distortions around the world. The current phase entailed substantial data collection and a first deliverable appears as "Distortions to Agricultural Incentives in Egypt," (with Saad Nassar, Gamal Siam and Hoda Moussa), Chapter xx in Distortions to Agricultural Incentives, K. Anderson and W. Martin (eds.), World Bank, Washington D.C. (forthcoming).

March, 2007, Amman, Jordan. International Trade Consultant, USAID/SABEQ Project. The content developed in this project resulted in a guide (manual) to serve as a methodology for identifying advantages and pitfalls of current and potential Regional Integration Agreements (RIAs), quantifying some of the impacts grossly, and suggesting just which future analysis or studies would be crucial. The "rules of thumb" developed are just that - important indicators, not the last word - but they do draw on many decades of economic theory and practical experience with RIAs. There was also a Workshop conducted for the Ministry of Industry and Trade and other stakeholders.

May - August, 2007, Amman, Jordan. International Trade Advisor, USAID/SABEQ Project. Development of a National Trade and Enterprise Strategy (NTES). The NTES aims to articulate both the foundations of a good strategy and to provide a number of specific recommendations regarding trade policy, enterprise development in a global context, and public-private dialogue. The project produced a comprehensive Discussion Paper which provides a starting point for refining the Government of Jordan's commitment to open markets and an algorithm based on best practices for enfranchising the private sector.

April - September, 2010, Hanoi, Viet Nam. International Trade Expert, EU Multilateral Trade Assistance Project Viet Nam III (MUTRAP III). Impact assessment of free trade agreements on Vietnam's economy. The MUTRAP III project aims at strengthening the capacity of the Ministry of Industry and Trade (MOIT) concerning its core responsibilities of trade policy making, WTO coordination, regional and free trade agreements and implementation of integration commitments and competition policy. The MOIT needs strengthened analytical and research capacity to sufficiently manage and take on the parallel negotiations which are resulting from the WTO-Doha Development Agenda and the increasing number of regional and bilateral trade agreements. Specifically, this activity aims to assist Vietnam to identify the efficiency of the following Free Trade Agreements: ASEAN-Korea, ASEAN-India, ASEAN- Australia New Zealand and AFTA through the *ex-ante* and *ex-post* assessment of the main economic and social effects to Vietnam of these preferential trade agreements. The approach employs both quantitative (CGE; gravity model) and qualitative methods.
