Very implausible conspiracy theories involving Gates have been debunked by Snopes at <https://www.snopes.com/fact-check/bill-gates-id2020/>

## Bill Gates will use microchip implants to fight coronavirus

19-Mar-2020, Biohackinfo News.

*In a Reddit Q&A, billionaire philanthropist Bill Gates revealed his plan to use 'digital certificates' to identify those who have been tested for COVID-19.*

Microsoft co-founder Bill Gates will launch human-implantable capsules that have 'digital certificates' which can show who has been tested for the coronavirus (<https://biohackinfo.com/news-coronavirus-coronope-vaccine-diy-corohope-covid-19/>) and who has been vaccinated against it.

The 64 year old tech mogul and currently the second richest person in the world, revealed this yesterday during a [Reddit 'Ask Me Anything' session](https://www.reddit.com/r/Coronavirus/comments/fksnbf/im_bill_gates_cochair_of_the_bill_melinda_gates/) ([https://www.reddit.com/r/Coronavirus/comments/fksnbf/im\\_bill\\_gates\\_cochair\\_of\\_the\\_bill\\_melinda\\_gates/](https://www.reddit.com/r/Coronavirus/comments/fksnbf/im_bill_gates_cochair_of_the_bill_melinda_gates/)) while answering questions on the COVID-19 Coronavirus Pandemic.

Gates was responding to a question on how businesses will be able to operate while maintaining social distancing, and said that, "Eventually we will have some digital certificates to show who has recovered or been tested recently or when we have a vaccine who has received it." ([https://www.reddit.com/r/Coronavirus/comments/fksnbf/im\\_bill\\_gates\\_cochair\\_of\\_the\\_bill\\_melinda\\_gates/fkupg49/?context=3](https://www.reddit.com/r/Coronavirus/comments/fksnbf/im_bill_gates_cochair_of_the_bill_melinda_gates/fkupg49/?context=3))

The 'digital certificates' Gates was referring to are human-implantable 'QUANTUM-DOT TATTOOS' that researchers at [MIT and Rice University are working on](#) (<https://stm.sciencemag.org/content/11/523/eaay7162>) as a way to hold vaccination records. It was last year in December when scientists from the two universities [revealed that they were working on these quantum-dot tattoos](#) (<http://news.mit.edu/2019/storing-vaccine-history-skin-1218>) after Bill Gates approached them about solving the problem of identifying those who have not been vaccinated.

The quantum-dot tattoos involve applying dissolvable sugar-based microneedles that contain a vaccine and fluorescent copper-based 'quantum dots' embedded inside biocompatible, micron-scale capsules. After the microneedles dissolve under the skin, they leave the encapsulated quantum dots whose patterns can be read to identify the vaccine that was administered.

The quantum-dot tattoos will likely be supplemented with Bill Gates' other undertaking called [ID2020](#) (<https://id2020.org/>), which is an ambitious project by Microsoft to solve the problem of over 1 billion people who live without an officially recognized identity. ID2020 is solving this through digital identity. Currently, the most feasible way of implementing digital identity is either through smartphones or [RFID microchip implants](#) (<https://biohackinfo.com/rfid-nfc-implant/>). The latter will be Gates's likely approach not only because of feasibility and sustainability, but also because for over 6 years, the [Gates Foundation](#) (<https://www.gatesfoundation.org/how-we-work/quick-links/grants-database/grants/2014/01/opp1068198>) has been funding another project that incorporates human-implantable microchip implants. This project, also spearheaded by MIT, is a [birth control microchip implant](#) (<https://nationalpost.com/news/bill-gates-funds-birth-control-microchip-that-lasts-16-years-inside-the-body-and-can-be-turned-on-or-off-with-remote-control>) that will allow women to control contraceptive hormones in their bodies.

As for ID2020, to see it through, [Microsoft has formed an alliance](#) (<https://id2020.org/alliance>) with four other companies, namely; Accenture, IDEO, Gavi, and the Rockefeller Foundation. The project is supported by the United Nations and has been incorporated into the [UN's Sustainable Development Goals initiative](#) (<https://www.un.org/partnerships/news/id2020-summit-2016>).

It will be interesting to see how Bill Gates and ID2020 will execute all this because many Christians, and surprisingly a growing number of Shia Muslims, are very opposed to the idea of microchipping and any form of body-invasive identification technology. Some Christian legislators and politicians in the United States have even [tried to ban all forms of human microchipping](#) (<https://biohackinfo.com/news-rfid-chip-implant-ban-nevada/>).

But, on the other hand, this is Bill Gates' perfect opportunity to see the projects through because as the coronavirus continues to spread and more people continue to die from the pandemic, the public at large is becoming more open to problem-solving technologies that will contain the spread of the virus.

The main reason many Christians and some Shia Muslims are opposed to body-invasive identification technologies, however helpful such technologies are for preventing pandemics, is because they believe that such technologies are the so called 'Mark of Satan' [mentioned in the Bible](#) (<https://www.biblegateway.com/passage/?search=Revelation+13%3A16-18&version=KJV>) and some Mahdi prophecies. In the Book of Revelations in the Bible, anyone who does not have this "mark" is not allowed to buy or sell anything.

Last year in November, a Denmark-based tech company which had contracts to produce microchip implants for the Danish Government and the US Navy, had to cancel the launch of its supposedly "revolutionary" [Internet-of-Things](#) (<https://biohackinfo.com/iot/>) powered microchip implant after Christian activists attacked its offices in Copenhagen.

ID2020 2016 Summit at the United Nations.

To everyone freaking out in the comments, Please, this has nothing to do with your conspiracy theories! This is clearly one solution to pandemics. A solution with many other applications that could improve the lives of billions and pull them out of the misery and suffering that your conspiracy theories and superstitions have never been able to solve. It is mind boggling how in the 21st century, all of you – who have access to technology and clearly know how to use it, are recklessly coming to your crazed superstitious conclusions about simple technologies! Calm down. Bill Gates is a... [Read more »](#)
