Do you have facial weakness that is not due to a stroke or other brain injury? Do you have difficulty closing your eye or mouth or making facial expressions on either side of the face?

If so, you may be eligible for a research study being conducted at the University of Pittsburgh.

We are interested in people ages 18-65 with have facial weakness or paralysis on one side of the face.

Your participation lasts approximately one hour and you will be compensated for your time.

For more information, please contact Dr. Karen Schmidt at 412-624-5432 or kschmidt@pitt.edu.
