**Ron’ SuperCourse Team wish you a Happy NEW 2022 Year!!!**
We are collecting the names of your favorite science books from Scientists like you to share information about science materials we are most passionate about with young scientists and including these into the Research Methods Library of Alexandria.

http://www.pitt.edu/~super1/ResearchMethods/SerageldinEuclidLibraryBooks.htm

Please contact us if you have a book that had the most impact on you as a scientist, as this one:

Jacob Bronowski "The Ascent of Man", book and Television series. [recommended by Ron LaPorte]. Dr. Bronowski’s work had a profound effect upon me and my scientific career. His writings instilled a passion, and love of science. His thoughts will last 1000 years.
Outstanding Ron's video lecture - about his background, DiaMond, Internet, Library of Alexandria, Global Health and more

May 29 is a special day for Supercourse:
Ron’s Birthday!

Celebrating 60 years with PowerPoint presentation – available on request

Celebrating 72 years with Kudoboard - https://www.kudoboard.com/boards/OxRmacdP

Diabetes Epidemiology program was an initial base for Building Supercourse, networks and collection of free Health and Internet resources: Pictures of History of Diabetes Epidemiology Supercourse

Other Supercourse collections:
- JIT Multilingual Lectures
- Multilingual Science
- Multilingual Supercourse
- Breaking down the walls of science
- SC Courses, Collections and Special Lectures
- Research Methods Supercourse
- What is Health?
- Legacy Lectures and more...
For 2021 year the most visited page of Supercourse was “Coronavirus disease (COVID-19) pandemic” at https://sites.pitt.edu/~super1/COVIDpandemic.htm. It got 15,840 page views (14,408 unique).

The most visited Supercourse lecture in 2021 was “COVID Pandemic Updates (by AHMC COVID Team) and direct pdf files with same name (updated every 2 weeks).
Science Supercourse had 56,878 pageviews (45,997 unique pageviews) for last year.

Total number of pageviews of Supercourse pages, besides lectures, was 111,432 (81,196 unique pageviews) for last year.
Please subscribe to Supercourse Newsletters at supercoursehelp@gmail.com to get News and announcements. In August, for example, we usually send “What is Health?” newsletter, which should help your students to understand and discuss the WHO definition of health and other related materials important to students in different disciplines of Science.

Rest in peace, Ron! - YouTube
What advise would you give young scientists in 200 years?

“A Man in his books may be said to walk the earth a long time after he is gone” (Muir)

We want to excite and help future generations of scientists. Over the past few weeks I have been re-watching my favorite Scientist, Jacob Bronowski. Dr. Bronowski in 1973 developed a television show and book called the “Ascent of Man”. He wrote several incredible books. All these are available on Netflix, Amazon and other sources. The substance of his work is:

“An account of man’s development through his scientific and technologic achievement”

The writings of Bronowski instilled in me a joy of science, pulling me out of the bleakness days of graduate school to show me and others the love of science. I am sure many of you felt this way and were helped by special books.
